

## Inform changing of company name

On behalf of Saraburi Technic Concrete Co.,Ltd. I would like to express our gratitude towards our customers, business partners, as well as all business alliances that has supported our business all along. This brings us to sustainably grow in the prestressed concrete industry, enabling us to increase our production capacity from the first factory in Saraburi till the present that we now have 8 factories all over the country, namely Saraburi where we have 2 factories, Chonburi, Ubon Ratchathani, Khon Kaen, Buriram, Lamphun and Sukhothai. Therefore, to represent our current operations of the company, the board of directors and the shareholders have approved to change the company's name as follows:

Current Name: **SARABURI** TECHNIC CONCRETE CO.,LTD (บริษัท สระบุรีเทคนิคคอนกรีต จำกัด)

New Name: **SIAM** TECHNIC CONCRETE CO.,LTD ( บริษัท สยามเทคนิคคอนกรีต จำกัด )

With the effect from Wednesday, 9<sup>th</sup> November 2016

However, our brand will remain the same, which is “**STEC**”

Over the past 15 years of experiences, the company has manufactured and distributed prestressed concrete products, provide product delivery services, and perform construction services and piling installation services under the “STEC” trademark. Our products include prestressed electric poles and electric pole components, concrete piles as well as other concrete products. Currently, the company has added a new product, which is the prestressed concrete spun pile (**PC Spun Pile**). The operation for this pile is at the Phra Putthabat district in Saraburi Province, which is the 8<sup>st</sup> factory operating to serve an increasing demand. Under the management of our experienced executives, we focus on developing the manufacturing process, the efficiency of our personnel and the quality of our products to operate as the country's leading manufacturer and distributor of prestressed concrete product as well as to provide construction services to customers both in the public and private sectors, where we have always been well trusted in terms of quality and service.

Today, the growth of the construction industry's economy shows a continuously increasing trend, especially the infrastructure projects of the public sector. This causes our company to prepare to expand our markets, both domestically and also in the ASEAN Economics Community. The changing of our company's name is to enhance a stronger image of the company, as well as expanding our branches to economically strategic locations that are able to serve the regional and ASEAN needs. The company will concentrate on operating under our “**Everybody is Valuable to Us, Every Product is of the Best Quality**” slogan and will continue to build trust and confidence with our customers, business partners, and business alliances under the name **Siam Technic Concrete Co., Ltd.** as best as we have always done.
